No players allowed out of bounds. If the ball goes outside the 3 yard box they must shoot or pass to another player. Players can grab the ball from opposing

players by touching them, stick the ball out with an extended hand or by sliding the ball through their legs. Goalkeepers can stand still or run in the right direction with the ball as long as they push and pull the ball with their stick in order to keep the ball in play. Goalkeepers are allowed to kick, tackle, foul, etc" A "Sub" on this map is a goalkeeper that will stop the ball for your team if you touch the ball. He has to be within the goal area. He can punt the ball or push it into space with the striker. "Hit Environments" Red Environments : Hit the ball and player will be in the red. Time will slow for the hit environment. Green Environments : The player will stay in the green and nothing will happen if you touch it. The player will jump in the air. What's new:

of Arrundell, Dancing Nether Summary When the templar Marielle returns to Arrundell, her brother, the Prince, has fallen gravely ill, and only her alchemy, and that of her friends, can save him. But as the nation approaches ruin, and as Marielle begins to fall for another alchemist, she may find that her life has already been spared—by someone else... Marielle's family have just sent word that her brother Prince Hislieth is dying. She must travel all the way to Arrundell to attend his side. The journey through the ruinous countryside will be long and hard, but with the help of her friends, Sir Stenden and Lord Hiden, Marielle will gather what help she can from the people she meets. But Marielle's return to Arrundell is fraught, as the condition of the nation is worsening day by day. Only Marielle's alchemy can lead her to the medicine to save Prince Hislieth. But the fate of the whole country may depend on her actions. Set in the brilliant world created by Cassandra Clare, where alchemy is one of the most important ways to conquer the Daybreak

Wars, where the abilities of clairvoyance and the magical gifts of the Word are exploding on the stage, Cassandra's worlds and characters are fresh and original, and her wit, vivid imagination and breath-taking storytelling are just as exceptional as ever. I haven't ever read a Cassandra Clare novel, but I have heard some of her readers talk about them - they liked the character aspect of the narratives, which were more personal and character-centred rather than pure action focused. However, I seriously doubt I'll get around to reading them. This review is not part of a series per se, but as the publisher is clearly billing this book as the start of a new trilogy of books featuring Marielle, this might be followed by subsequent reviews. And why not? Since I love the character of the author so much, I may as well read her books. Bottom line: It's a good read, probably far better than I expected from Clare, because of the characters being more prominent and personal than I'd expect from her. Further Bottom Line: I really, really, really, really, really want to

At your destination, Maria's fiancée, will stop you and follow you, but you must make sure to take the magic ring first. The forest where you were trapped is not just another camping spot; there are spirits in there, that if not appeased, will stay in the forest forever. Your goal is to reach the demon before he has a chance, and hopefully then the forest will be more cooperative. *****

"Hello stranger, you must know the pain you experience, but you must endure it for there is no way for you to stop it. You will now find that pain. You are now on a quest. Go to the room that is unlocked and find a chest in the roof. The chest will tell you what you need to do. Thanks, she says in the last line, as if she knows you are about to go nuts or something and jump off a cliff. What do I need to do? I need to prove my innocence or my stupidity, but I am a middleman, how the hell am I going to get by with this? I leave and see that it is impossible to jump off the cliff. Not so much as a handhold to climb. I can never prove I am innocent. There is a crack in the room, which opens to another world. What was that thing? I go back but now the chest is empty.
