
How To Change Serial Number On Samsung Printer

Download

the home label kit includes step-by-step instructions for applying additional safety information to the machine. it includes a new control panel guide for certain models, two warning labels and a user manual supplement. it also provides additional instructions to ensure the safe use of your machine while you schedule an in-home repair or take advantage of the exchange rebate. in most cases, when you add a printer, macos uses airprint to connect to the printer or automatically downloads the printers software (also called a printer driver). dont install the software that came with the printer or from the manufacturers website; follow the instructions in one of the tasks below, and macos prompts you to download the latest software if its needed. the name of the samsung printer's serial number is printed on the owner's manual. to change the name, tap serial number. a pop-up appears showing the current serial number.

tap edit serial number and enter your desired serial number. this field is required. all affected products will be covered for repairs and/or replacements (parts and labour) by samsung, free of charge for up to one year after the date you purchased the affected product. repairs and/or replacements will be carried out by samsung at your local samsung service centre. your samsung home label kits may have been shipped to you already with the serial number on the sticker included. however, if you are replacing a new machine, your serial number will be on the back of your machine. it is possible you may be required to contact samsung care australia for more information.

How To Change Serial Number On Samsung Printer

since you have updated your printer's software, the serial number on the label may have changed. if you need to change the serial

number on your printer, you must first change the printer's model by clicking on the model tab and selecting the model of the printer that you wish to change. next, click on the serial number tab and enter a new serial number in the corresponding text box. click save when you are done changing the serial number. click save when you are done. if you need further assistance, please consult the user manual from our manuals & downloads page or contact our samsung care australia experts on 1300 362 603 (toll free in australia). you can also contact our chat support team or reach us through samsung memberscommunity. if you have a wi-fi printer, you might need to connect the printer to your mac with a usb cable to set up wi-fi printing. after connecting the printer to your mac, install the mac software that came with the printer and use the printer's setup assistant to connect the printer to your wi-fi network. after setting up, you can disconnect the cable

from your printer and mac, and the printer should remain connected to the wi-fi network. see the apple support article connect an airprint printer to a wi-fi network. samsung recommends that you change your administrator password from the default 1111. this will protect your devices data and personal information. to change your administrator password: 1. press the menu button. note: if you have previously set your administrator password to 1111, and have changed your administrator password to a more secure one, continue to use 1111 as your administrator password. samsung recommends that you continue to use 1111 for all your devices, including the printer, so that all your devices can be easily connected to the network if lost or stolen. 5ec8ef588b
